1. Aspencomments = Hi,

Just a note to let you know how pleased I was with the service I received on the evening of 2/1/08. I came home to a house smelling very strongly of propane. I called after 5 and one of your techs answered, told me what to shut off and then how to get a tech to come out and fix my problem. Techs name was Jim, nice guy, very professional and courteous. He had the furnace up and running properly in no time. I am very grateful for your after hours service.

Sincerely,

Sue [REDACTED]
